About Karnataka Urban Water Supply & Drainage Board

The Karnataka Urban Water Supply & Drainage Board is a Statutory Body formed under Act No: 25 of 1973. The Karnataka Urban Water Supply & Drainage Board is an I.S.O. certified organization since 2001. The Board is an implementing body for Water Supply and Underground Drainage facilities in 213 Urban areas, of which 7 are City Corporations, 44 CMC's , 94 TMC's and 68 Town Panchayaths. The total population covered as per the Census 2001 is 116.45 Lakhs and the projected population for 2011 is 150.05 Lakhs. The Board aims to provide adequate water supply from assured and safe sources of supply and also proper sanitation to all the urban areas.

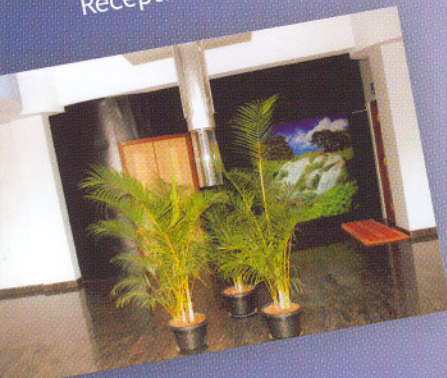

The Board designs and executes Water Supply and Sanitation Works under various funding heads for Urban local Bodies. The Water Supply and Sanitation Sector is a highly specialized Sector which caters to the important Urban infrastructure for the development of urban areas.

This Sector needs professionally trained Engineers, Administrators, Skilled Supervisors and other manpower to deliver an efficient service to the Public. Due to the complexity of projects under Drinking water and Sanitation to be implemented in thickly populated urban areas, there is a strong need to train all the concerned, to make them aware of challenges in implementation.

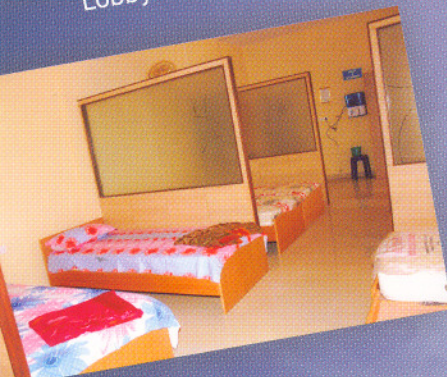

With growing awareness among the Public, the works of this nature are to be carried out keeping in mind the requirements of laws like KTPP Act, RTI Act, Contracts Act, and PWD Code, Bureau of Indian Standards and other related Acts, Codes & Standards. To fulfill this requirement, the Karnataka Urban Water Supply & Drainage Board has taken an initiative and has established an institute at Yelahanka, Bengaluru which is named as " WATER & WASTE WATER LEARNING CENTRE AND THEME PARK "
